

**NEWSHA**

---

We have a firm belief that in Today's world of ever-increasing scientific advances in the realm of cyberspace, the traditional distribution system in the country has no alternative but to change.

Newshanik – a subsidiary of the parent company Newshadarian – has taken over full responsibility for the marketing and selling of goods, produced or packed in Newshadarian, through a modern business model called network marketing.

Newshanik – under the management of its CEO Ahmad Eyvazi – was registered at the Islamic Republic of Iran Company Registration General Office in 2012.06.16 under Registration No. 425800 and national ID 10320787428 which was published in official gazette and mass-circulation newspapers. Furthermore, The Articles of Association define the company's purpose as "network marketing for goods distribution". We are the first foodstuffs production and distribution company that succeeded in obtaining the network marketing license issued by the internal trade department of Iran Industry, Mine and Trade Ministry in 2012.07.11.

The founder and CEO of Newshanik is a member of Daryani family, who has been in tea trade for 70 years. Accordingly, Newshanik has primarily targeted the vast and untapped market of modern beverages.

At the present time, we have more than 50 active branches all over the country; and accompanied by about 20.000 independent direct sellers organizing their downlines, we have created a clear and significant opportunity for finding and attracting business talents in different parts of the country.

Our ultimate ideal aim is to develop the latent business potential in most people which is seldom fulfilled because of lack of a suitable and efficient opportunity. Our visions are split into three parts: short-term, medium-term and long-term. Our ultimate and long-term vision is to attract a great number of highly-empowered women.

Newshanik has set aside traditional commercial formats and is striving for improvement every day. This business and its potential energy will drive us forward.
